PFP was launched on July 22, 2006 by residents and workers in the Queens power-outage communities of Sunnyside, Woodside, Astoria and LIC. PFP volunteers have petitioned, held public meetings, mobilized for & spoken at public hearings, and participated as a community voice in the state investigation of the July 2006 Queens Power Outage. PFP is fighting for justice, an economic-and-public-health-impact study and full reimbursement for damages & losses (beyond spoiled food).
